

ITAV Measurable Outcomes

1. Graduate high school or obtain a GED
2. Create a personal Transition Plan and carry it out upon discharge.
3. Obtain and sustain employment.

Current Findings

- The average length of stay of a youth in the ITAV program is 102 days.
- In an average of 102 days, 64% of youth met at least half of their outcome goals. (Three of the youth meeting 100% of the outcome goals).
- In an average of 102 days, 42% obtained a HS diploma or GED.
- 64% of youth exiting ITAV program, successfully transitioned based on their personal plan.
 - SD-transitioned to Jobcorp and recently moved to Pennsylvania as he obtained a job in energy sales.
 - TB-transitioned to Seward County Community College
 - ID-enrolled at Hutchinson Community College for training as a Surgical Technician
- 80% of youth obtained employment.
- Only 3/15 (20%) youth disrupted due to unsafe behaviors to staff and/or other youth.
